

Govert de With - Curriculum vitae

Cluster manager – Nuclear Research & consultancy Group

Responsibilities

- Cluster manager NORM / deputy head of department

I am responsible for the management of the consultancy cluster for Naturally Occurring Radioactive Material (NORM) in NRG. The cluster provides consultancy and expert advice to industry, (inter)national governmental organizations and non-governmental institutions. In this role I am responsible for the project acquisition, planning & budgeting as well as allocation of resources.

- Technical expert

I am expert member in the IAEA under the EMRAS programme on dispersion of nuclear pollutants in atmosphere and marine environment. Member of various (European) standardization committees on NORM related activities and expert advisor to the Dutch government.
